

## THE BROTHERHOOD OF THE ESSENES GIVES YOU TWENTY REASONS WHY YOU SHOULD STUDY THE DIVINE MYSTERIES

1.—Because they investigate and teach the great mathematical laws of the UNIVERSE, in a manner that no other science does or could do.

2.—Because these laws were the first laws that were introduced to the observation of man; and not only do they co-operate with nature, but they are confirmed by history, tradition and scripture.

3.—Because they are founded upon the old and new testaments, and no person can have a proper understanding of these books or comprehend them in their true meaning without some Mystical knowledge.

4.—Because the science teaches you the true meaning of Brotherhood, and makes clear to you the meaning of undefiled Christianity in its three-way aspect of Faith, Hope and Charity.

5.—Because it teaches you the true meaning of cause and effect and proves Re-incarnation to you in a logical and consistent manner.

6.—Because no person without a knowledge of its teachings is qualified to advise his friends or entertain any great or important matter, unless his judgment has been developed by its infallible laws.

7.—Because a man without the true mystic science is like a cork on a wave, tossed about at the mercy of what he is pleased to term CHANCE, unable to direct his life on the line of least RESISTANCE, which is the line of greatest PROGRESS.

8.—Because the science has vindicated its TRUTH in all ages and with all classes of men, and never in the history of the world has it ever been disproved, nor has there ever been found a great thinker who has studied the science and then condemned it.

9.—Because it has been studied by the greatest thinkers of all countries, and accepted by them as

absolute and irrefutable proof in dealing with the destiny and life of man.

10.—Because it makes a man master of his faults if he follows its laws; while at the same time it allows him to adopt the profession or trade most suited to his temperament, and shows him the line of greatest success.

11.—Because above all it points out the times of adversity and prosperity, thus showing when to push ahead and when to keep quiet, and enables a man to get the greatest result from his efforts.

12.—Because it describes the class of person to cultivate that is suited to your individual temperament thus avoiding much strife and friction in your dealings with others.

13.—Because it describes the proper person to choose for a wife or husband; while at the same time it will show you your open and secret enemies.

14.—Because it will show you the weakest part of your body, and the part where disease will first attack you, thereby enabling you to adopt the proper remedies and those that are most natural and above the power of man to change.

15.—Because it points the time of accidents, and shows if the person is liable to accidents or not, and also their kind and part of the body affected.

16.—Because it allows you to form a conclusion for any important happening, and enables you to get a practical judgment of the thing and the persons concerned.

17.—Because it enables you to find the proper place to live, both for health and prosperity; and points out whether it would be beneficial to leave your native place for abroad.

18.—Because there is no happening in life that the science of mysticism cannot explain and give you a practical answer.

19.—Because it is the basis of all religions in existence, and the foundation upon which the whole

of architecture rests. This is impossible to refute when all sectarian bias is eliminated.

20.—Because it proves the truth of the DIVINE POWER and shows that God's Laws are mathematical laws; there by developing and eventually proving that God is a personal being in whose IMAGE we are made; beginning with the Trinity in the heavens and ending with the three centres in the body of man.

## HOW THE SEVEN AURAS OR PERSONALITIES ARE SUPERIMPOSED

1. These seven personalities are arranged according to a definite plan; three belong to God and the Trinity; and four belong to matter and the Earth.

2. The first aura rules the Personality whom we call Mr. or Mrs. So and So.

3. According to the angle, or angel, of their manifestation in relation to the human body auras or personalities bring with them, in the great majority of cases, an unfinished Fate according to the indication of the thought force cumulative in this or other lives.

4. These personalities incarnated at birth cannot be changed or re-arranged or the Fate in any way altered except by the intervention of the Divine Tetragrammaton besought at the right hour and in a consecrated place.

5. These powers are transmitted through and by initiation to Brothers of the Essenic Order and by them handed down to Posterity.

6. In order to conserve and strengthen, and to make a focal point for the spiritual forces to congregate, low altar tables at selected places were consecrated throughout the world.

7. Adepts draw their power from these sources and people with faith go to these places to change their auras within prescribed limits and to obtain guidance in connection with their lives.

8. Glastonbury, the cradle of Christianity, is considered by Adepts to be the most magnetic place in the world for Astral Transference to Human Bodies through special prayer and magical invocation at the proper time.

9. When any person being full of faith and in possession of the special prayers makes a pilgrimage to Glastonbury on the appointed annual day of the

solstice, and enters the Midnight Service, he or she is superimposed by a Divine Tetragrammaton which guides the individual through the ensuing twelve months.

It may be difficult from these brief notes for the average reader to understand the above, but there will be more detailed explanation in other literature on the various subjects.
